

30 Mar. 2009

We had a wonderful time here with AID India. Thank you all! Jason + I didn't know what to expect - we just wanted to do something to help people in need in India. AID India is a very caring & dedicated organization, + I hope that we helped in some small way. Helping to teach English at Venkatrayapuram was challenging, but we enjoyed it + hope it made a difference with the children. We also were happy to help with collecting info about the emu farm. Best of luck with all your endeavors. I hope that with your love + strength, AID India will continue to expand + help those in need.

Thanks again for taking such good care of us, + for sharing your wonderful culture.

All the best,
Laura Heiker (U.S.A.)

I am happy to say that I helped out with an organization pursuing such a noble cause as AID India! Laura and I came here with no expectations but were very touched by what a caring organization you have. It is like one big family taking care of its own. I hope we made a difference to the children of Maria Grace High School with our English teaching. They are an eager group of children and it was our pleasure to do what we could to improve their grasp of the English language. Hopefully what we began there will be continued and expanded upon by future volunteers. We look forward to helping the children at Island of Hope orphanage in whatever way we can for the days we will spend there before continuing on our way. Good luck with your future projects and keep up the great work!
