

✓ My dear friends.

There is so much to say. I stayed with you all for 5 months. Now you are members of my Indian family. You made me step into Indian culture and now it's hard for me to leave this wonderful place. I will miss you all, Dency and her laughter, Rajamal taking care and huging, Uma always wanting to give her precious help. Jikki and her songs.

- of course Peter who I learnt so much from, always ready to answer my numerous questions, my interrogations, willing me to enjoy and feel good at any moment.

- of course, Kalyani, who is now my sister, with her meals and all the much more important things she gave us everyday = love, laughter, care.

I loved (and I still love) being a team member in such an organisation, with humanist principles. It's well organised and efficient, with aid India there someone differently abled people and children can look forward to a bright future!

I will miss you all so much, the colorful bars, your smiles.

I cannot tell when but I think that I will come back.

Thanks for opening me the doors of your country of your lives and your heart.

I'm so thankful and will never forget!

we keep in touch anyway.

with lot of love to amazing people. Lucie
